open

5th Page will be open
on listView click

In this user can add whole trip, or a restaurant he visited and he can also add restaurant to any trip.

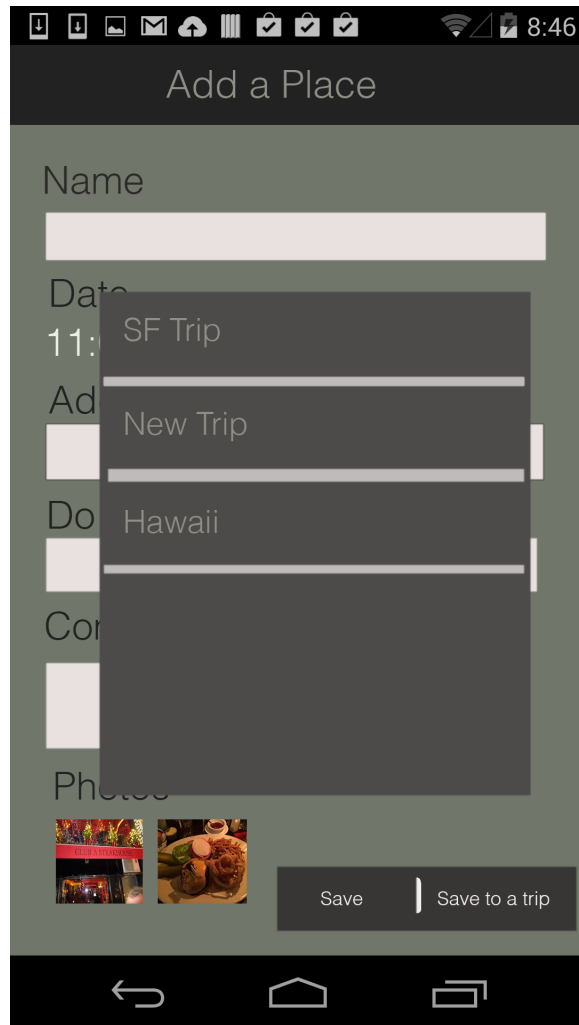

On click 3rd Page will open

3rd Page

The screenshot shows a mobile application interface for adding a new place. The title bar at the top is dark grey with the text 'Add a Place' in white. Below the title bar, the form is set against a dark grey background. It contains several input fields: 'Name' (a single-line text box), 'Date' (a text box containing '11:00 am, 21st Sept 2014'), 'Address' (a single-line text box), 'Do you like it?' (a single-line text box), and 'Comment' (a multi-line text box). Below these is a 'Photos' section with two small image thumbnails. At the bottom of the form are two buttons: 'Save' and 'Save to a trip'. The mobile status bar at the very top shows various icons and the time '8:46'. The Android navigation bar at the bottom has three icons: back, home, and recent apps.

Default current date and time
user can update time and date
